Come Taste the Difference

Deer Creek Winery

Notes:

After having a long on their 97 acre property for several years, Dennis & Brenda Books reclaimed their land and planted an acre of raspberry plants. As the residents of the area, they are proud to have the best kept secret in the area.

They researched various avenues which led them on a clear path that has been traveled diligently, opening a winery that specializes in Raspberry Wine among other varieties. Deer Creek Winery officially became a reality worthy of being during its opening day of September 1, 2009 in Adams County.
